## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 25-34 are allowed. Claims 1-24 were canceled by the Applicant. The following is an examiner's statement of reasons for allowance:

The Examiner considered Patent Numbers 5,377,805 by Ono et al and 4,509,631 by Kim to be the prior art most closely related to the Applicant's claimed invention. Regarding the Applicant's independent claims 25 and 31, the '805 patent discloses LED 26 mounted on lower bezel 14b, but fails to disclose or suggest a denomination indicating display. Furthermore, although the '631 patent discloses push buttons 69 that include a coin value display, it fails to disclose or suggest a visual denomination display either located on a runway surface (cf. claim 25) or a processor controlling said display (cf. claim 31).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The following related art made of record and not relied upon is considered pertinent to applicant's disclosure:
